— 1787 —

P R E F A C E.

THE Editors of the following Sheets, think it unnecessary to offer any Apology for their Publication, as the general Wish has long been expressed for a good SHEFFIELD DIRECTORY. How far they may have succeeded to render it so, in their first Attempt, the judicious Reader must determine. They can, with Confidence, aver, that no Labour or Expence have been spared to make it generally useful.

The Publishers cannot presume to themselves of having fixed upon a Plan entirely agreeable to all; this they conceive would be impossible: but, as they have, in every Stage of the Business, consulted with, and taken the Advice of, Gentlemen well acquainted with the Town and its Trade, they have Reason to hope, the major Part may approve of the one adopted. Any Hint, however, given them for the Improvement of it, in future, will be gratefully received, and duly observed.

In Order to make every succeeding Edition more perfect, the Editors intend keeping open, at J. GALES's Shop, a REGISTER for the entering of any Manufacturer that may have been omitted in this; and also for the Insertion of all who hereafter commence Business; for the noting of Deaths, Removals, Dissolutions of, and Alterations in Partnerships, &c. and, as this Book will be open to all who may be inclined to look into it, they flatter themselves it will be found of much Utility.

Errors and Deficiencies must unavoidably appear in every Work of this Kind, from the extreme Difficulty of procuring Information in some Things, and the fluctuating Variety of others. The Editors, trust, therefore, the Candour of a discerning Public will overlook and pardon all that may occur, when they consider how difficult the Task is (if they allow it to be even possible) to make a DIRECTORY, in every respect, free from exception.
